

ANZMTG Australia and New Zealand Melanoma Trials Group

STRATEGIC GOALS 2009–2010

Goal 1:

Lead a national clinical research agenda
in melanoma

Goal 2:

Facilitate national
participation in
melanoma clinical
research

ANZMTG aims

1. Bring together researchers, clinicians, health care professionals and consumers with an interest in melanoma clinical trials to foster collaboration and the exchange of ideas
2. Develop and support large-scale, multi-centre melanoma studies of clinical relevance and importance which would be difficult for any single centre to complete.
3. Provide a single point of contact for sponsors and investigators wishing to undertake melanoma trials in Australia and New Zealand.

Goal 3:

Maximise efficiency
through streamlined
processes

Goal 4:

Build capacity
through effective
partnerships

Goal 5:

Ensure sustainability
by positioning for the
future
