Foote, M. A Randomised Trial of Post-Operative Radiation Therapy Following Wide Excision of Neurotropic Melanoma of the Head and Neck (ANZMTG 01.09; TROG 08.09), TROG Annual Scientific Meeting, April 2014, Sunshine Coast, Australia. (Oral presentation)

Foote, M. TROG 08.09 ANZMTG 01.09 An International Randomised Trial of Post-operative Radiation Therapy Following Wide Excision of Neurotropic Melanoma of the Head and Neck., Global Controversies and Advances in Skin Cancer, November 2013, Brisbane, Australia [Oral presentation]

Foote M. A Randomised Trial of Post-Operative Radiation Therapy Following Wide Excision of Neurotropic Melanoma of the Head and Neck (RTN2). Australia and New Zealand Melanoma Trials Group (ANZMTG) Annual Scientific Meeting, November 2013, Brisbane, Australia. (Oral presentation)

Foote, M. TROG 08.09 ANZMTG 01.09 An International Randomised Trial of Post-operative Radiation Therapy Following Wide Excision of Neurotropic Melanoma of the Head and Neck. Journal of the Deutschen Dermatologischen Gesellschaft 2013, [Published online]

Foote, M. TROG 08.09 ANZMTG 01.09 An International Randomised Trial of Post-operative Radiation Therapy Following Wide Excision of Neurotropic Melanoma of the Head and Neck. 8th World Congress of Melanoma, July 2013, Hamburg, Germany. [Poster presentation]

Foote, M. A Randomised Trial of Post-Operative Radiation Therapy Following Wide Excision of Neurotropic Melanoma of the Head and Neck (ANZMTG 01.09; TROG 08.09), TROG Annual Scientific Meeting, February/March 2013, Wellington, New Zealand. (Oral presentation)

Foote, M. A Randomised Trial of Post-Operative Radiation Therapy Following Wide Excision of Neurotropic Melanoma of the Head and Neck (ANZMTG 01.09; TROG 08.09), TROG Annual Scientific Meeting, May 2012, Darwin, Australia (Oral presentation)

2011

Foote M. A Randomised Trial of Post-Operative Radiation Therapy Following Wide Excision of Neurotropic Melanoma of the Head and Neck (RTN2). Australia and New Zealand Melanoma Trials Group (ANZMTG) Annual Scientific Meeting, Melbourne, Australia. (Oral presentation)

Wang, T. A Randomised Trial of Post-Operative Radiation Therapy Following Wide Excision of Neurotropic Melanoma of the Head and Neck (RTN2). Westmead Hospital Multidisciplinary meeting, Sydney, Australia. (Oral presentation)

Nobes, J. A Randomised Trial of Post-Operative Radiation Therapy Following Wide Excision of Neurotropic Melanoma of the Head and Neck (RTN2). National Cancer Research Network Melanoma Clinical Study Group Meeting, Norfolk and Norwich University Hospital, United Kingdom. (Oral presentation)

Pope, K. A Randomised Trial of Post-Operative Radiation Therapy Following Wide Excision of Neurotropic Melanoma of the Head and Neck (RTN2) Peter MacCallum Cancer Institute, Multidisciplinary Meeting, East Melbourne, Australia
Oral presentation:

Sun, A. A Randomised Trial of Post-Operative Radiation Therapy Following Wide Excision of Neurotropic Melanoma of the Head and Neck (RTN2) Princess Margaret Hospital Multidisciplinary Melanoma and Skin Site Meeting, Ontario, Canada.
Oral presentation:

2010
Foote, M. A Randomised Trial of Post-Operative Radiation Therapy Following Wide Excision of Neurotropic Melanoma of the Head and Neck (ANZMTG 01.09; TROG 08.09), TROG Annual Scientific Meeting, February/March 2013, Wellington, New Zealand. (Oral presentation)

Foote M. A Randomised Trial of Post-Operative Radiation Therapy Following Wide Excision of Neurotropic Melanoma of the Head and Neck (RTN2). Melanoma Institute Australia Research Meeting, October 2010, North Sydney, Australia. (Oral presentation)

2009

Paton, E. A Randomised Trial of Post-Operative Radiation Therapy Following Wide Excision of Neurotropic Melanoma of the Head and Neck (RTN2). World Melanoma Congress, Vienna. (Oral presentation)

Foote, M. A Randomised Trial of Post-Operative Radiation Therapy Following Wide Excision of Neurotropic Melanoma of the Head and Neck (ANZMTG 01.09; TROG 08.09), TROG Annual Scientific Meeting, May 2012, Darwin, Australia. (Oral presentation)
